

Application Serial No. 09/666,356
Amendment dated April 1, 2004
Reply to Office Action of October 2, 2003

Amendments to the Specification:

Please replace the second paragraph on page 8 with the following paragraph:

Describing the Fig. 1 embodiment in more detail, and referring now to Figs. 1 and 2, the combination 10 comprises a hollow pedestal 12 upon which is mounted a sundial 14. Pedestal 12 includes a base portion 16 and an upright sundial supporting shaft portion 18. Positioned within the pedestal 12, which is hollow, is a tube 20 including a cap 22 which is removably secured on an upper end thereof. Tube 20 and cap 22 are preferably fabricated of ABS plastic. Tube 20 preferably includes a flange 24 on a lower end thereof, which flange 24 is secured to the base 16 via fasteners 26. The cap 22 is preferably a press fit on the end of the tube 20. Cremated remains of the deceased may be inserted within the tube 20, and then cap 22 placed upon the end of the tube 20. Tube 20 is then inserted into pedestal 12 and secured with the fasteners 26. If desired, the cremated remains may be encased within a plastic bag or the like prior to insertion within the tube 20.
